# Game Rules: Abyssal Mission

## Introduction

Welcome to **Abyssal Mission**, an exciting adventure where you must repair a distressed submarine and dive into the ocean depths to accomplish a crucial mission: cut underwater fiber optic cables. Prepare to face challenges and solve puzzles to achieve your goal!

## Objective

Your mission is to repair the submarine and descend to the ocean depths to cut the underwater fiber optic cables. You will need to overcome various obstacles and solve puzzles throughout your adventure.

## Preparation

- **Team**: Play solo or in a team. Collaboration and communication are essential to overcome challenges.

- **Material**: A computer or tablet with an internet connection, and optionally paper and a pencil for taking notes.

## Gameplay

1. **Connection**: Log in to the website and start the **Abyssal Mission** adventure.

2. **Time Limit**: You don't have any time limit to complete your mission, just do it as quick as possible !

3. **Puzzles and Challenges**: Solve puzzles, find hidden objects, and overcome obstacles to progress in the adventure.

4. **Explanatory Document**: A document is available throughout the adventure to provide additional information about the challenges and obstacles you encounter.

5. **Hints**: If you get stuck, you can ask for hints.

# End of Game

- **Victory**: You win if you manage to repair the submarine, reach the ocean depths, and cut the fiber optic cables.

- **Defeat**: You can't lose even if you are really stuck.

# Tips

- **Communication**: Talk to your teammates to share ideas and find solutions together.

- **Observation**: Pay attention to details. Every clue can be important.

- **Logic**: Use your logic and critical thinking to solve puzzles.

- **Resilience**: Don't be discouraged by obstacles. Persevere to achieve your goal!
